Experience

Uvicuo

Frontend Tech Lead

Aug 2024 – Present

Barcelona, Spain

- Lead frontend architecture and technical decisions across the product to ensure scalability.
- Drive code quality standards, PR reviews, and engineering best practices using modern testing tools.
- Integrate AI-powered tooling into the SDLC, including Claude Code for agentic development workflows and custom skill creation to automate repetitive engineering tasks — reducing cycle times and improving team output.
- Implement E2E testing strategy using Playwright, increasing release confidence and reducing regression bugs in production.

Adevinta

Frontend Engineer

Sep 2022 – Jun 2025

Barcelona, Spain

- Develop and maintain large-scale React/TypeScript applications serving millions of users across European classifieds marketplaces.
- Contribute to cross-functional squads in a fast-paced Agile environment, delivering features end-to-end from design to deployment.
- Optimize frontend performance metrics and adopt best practices for accessibility and internationalisation (i18n).
- Collaborate with backend engineers to define APIs and integrate RESTful services.

SEAT:CODE

Frontend Developer

Apr 2019 – Sep 2022

Barcelona, Spain

- Contribute to the Giravolta mobility platform (Backoffice web app) from inception, defining the MVP and iterating on features within a SCRUM team.
- Implement cloud infrastructure for hosting and deployment using AWS S3 and AWS CDK (Node.js + TypeScript).
- Set up analytics and observability pipelines with Hotjar, Amplitude and Datadog.

TomTom Telematics

Software Developer ' Associate Software Developer

Sep 2017 – Apr 2019

Barcelona, Spain

- Active development of Single Page Applications (SPAs) built with React and Redux for a global car telematics platform.

everis (contractor @ TomTom Telematics)

Frontend Developer

Jun 2016 – Aug 2017

Barcelona, Spain

- Deliver frontend development work as a contractor, supporting TomTom Telematics' web application team.

Education

Institut Provençana

Higher Technician in Web Application Development

2014 – 2016

Institut Lacetània

Technician in Microcomputer Systems & Networks

2012 – 2014
